Subject: Eto-Braun-call with Krish

Alice has been in touch with PADEP staff regarding the emissions numbers from Braun:

Mark Houser: The emissions inventory contact
Craig Evans: Toxics contact

However, Jessica does not believe that PADEP staff has confirmed the numbers with Braun. Perhaps, your call with Krish could just be a heads-up regarding the agency roll out for August 27th, Croda being listed in the top 21, and with a suggestion that his staff confirm the numbers for us?
